

TUTORIAL10: GRAPH

1. Draw the respective graph for each of the floor plan. Then, identify path and/or cycle of Euler and Hamilton.

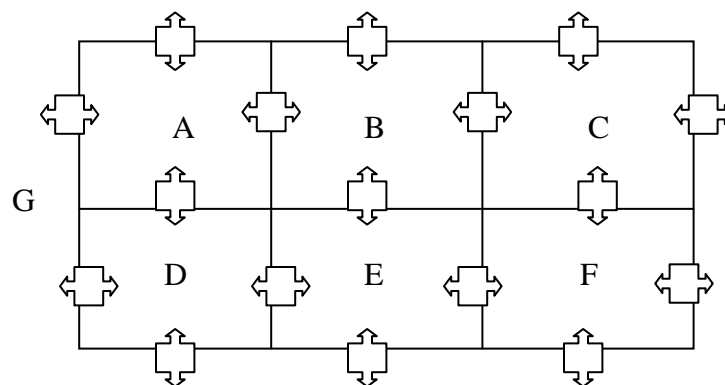

a)

b)

c)

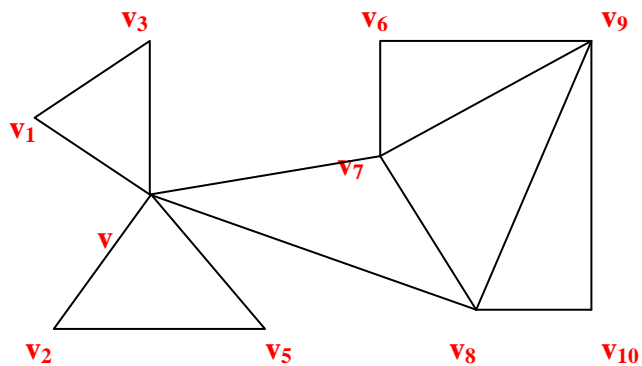

2. Find the degree for each vertex. Determine all the graph either it has

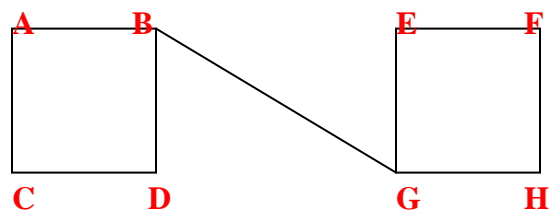

- i. Euler cycle and/or path**
- ii. Hamilton cycle and/or path**

If there is any, find the cycle or path.

a)

b)

c)
